PREMKUMAR RAMAVARAPU

MERN Full Stack Developer

✉ prem324r@gmail.com 📞 8688645767 📍 Kakinada, Andhra Pradesh in prem324

PROFESSIONAL SUMMARY

As a dedicated MERN stack developer, I specialize in creating full-stack web applications using MongoDB, Express.js, React, and Node.js. My passion for clean code and user-centered design drives me to deliver exceptional digital experiences.

EDUCATION

Aditya Degree College, Kakinada

Bachelor of Science (B.Sc) in Computer Science - 7.09   June 2021 - June 2023

SKILLS

- **Front-End Development**: HTML, CSS, Bootstrap, JavaScript, TypeScript, React.js, Tailwind CSS
- **Back-End Development**: Node.js, Express.js, Python
- **Databases**: MongoDB, SQLite
- **Development Tools**: VS Code, Git, Github, Postman

PROJECTS

Spotify Remix (Spotify Clone) ↗
- Implemented React Router for seamless navigation between login, home, playlists, and albums.
- Integrated Spotify Developer APIs to fetch music data (playlists, categories, albums).
- Utilized HTML audio tags for song playback functionality.
- **Technologies Used**: HTML, CSS, JavaScript, React.js, Bootstrap, Figma, Spotify Developer APIs.

Nxt Trendz (ECommerce Clone - Amazon, Flipkart) ↗
- Designed and developed login, product listing, and product detail pages using React components.
- Implemented JWT tokens for secure user authentication and REST API calls.
- Utilized local storage for persistent user sessions.
- **Technologies Used**: React.js, JavaScript, CSS, Bootstrap, REST API, JWT, Local Storage.

Jobby App (Job Search Platform) ↗
- Built React components for job listings, filters, and search functionality.
- Implemented user authentication using JWT tokens and secure API calls.
- Added query parameters for job search and filtering.
- **Technologies Used**: React.js, JavaScript, CSS, React Router, REST API, JWT.

CERTIFICATES

Full Stack Development with MERN Specialization - Industry-Ready Certification | NxtWave CCBP 4.0 ↗

KEY ACHIEVEMENTS

- Completed 24+ projects demonstrating the practical application of MERN stack technologies.
- Proficient in integrating third-party APIs (e.g., Spotify Developer APIs) for enhanced functionality.
- Skilled in implementing secure authentication systems using JWT tokens and REST APIs.
